Subject: Meeting w/Debra Rogers to deliver monitoring data - She has goat farm in Fort Worth around gas wells

All -

Debra Rogers (817-821-0975) has requested a meeting with us to deliver some baseline monitoring data. She will be accompanied by a representative with Representative Wendy Davis' office. She is available to come in this week and would like 1 hour of our time. She has many concerns about the emissions off the gas wells that surround her small farm.

Jeff and I can meet all day Wednesday, Thursday morning, and Friday afternoon. Please let me know what days/times work for you. Thanks.
